Subject: AXON CIP

This CIP project includes year two/three of a five-year agreement with AXON Enterprise Inc. The board approved this purchase on 9/21/2021 and the agreement includes body-worn cameras, in-car camera systems, evidence.com (iCloud storage), and TASERS for the Niles Police Department. This would also include the ability to download videos in unencrypted format and a 3rd party video storage software program and allows downloading and sharing of interview room video and the ability to convert videos. In addition, the 3rd party video software also maintains the chain of custody and integrity of the video evidence collected via Evidence.com.

AXON Equipment (Body cameras, dash cameras, TASERS, Licenses, Warranties, Unlimited Cloud Based Storage, Encrypted video download, Squad Car LPR, & Cameras Refresh
